

Hotel cleaners are also entitled to a weekend allowance!

All cleaners in the Netherlands receive a weekend allowance, except you! This is unacceptable and you have a right to this too. Join the fight and join the fight, so that you also get this allowance. It's about a lot of extra money that you don't get right now. We will negotiate this with the employers in September. It is important that as many cleaners as possible report to us before then and let them know that they demand a weekend allowance.

REGISTER [HERE](#) so we know how many hotel cleaners want this too:
